

International drawing contest for kids!

*A coral reef
and a penguin
do the yoga
'tree pose'*

<https://kidscareaboutclimate.org>

<https://15trees.com.au/>

- Will run May – June 2021
- Kids aged 4-14
- Draw what you love most about trees as a climate action to help penguins & coral reefs!
- 15 Trees will plant a tree for every kid who enters.
- A giant banner of drawings will tour iconic forests in Australia and around the world!!
- The banners of drawings will debut at the United Nations Climate meeting in Glasgow in Nov 2021.

Are you a teacher / parent / friend of a child aged 4-14? Would you like to see children empowered to make a difference in their world? Imagine a giant (7m by 5m) banner of the earth mosaiced from children's drawings from all over the world on display at the next United Nations climate meeting, with video playing of that banner touring iconic forests that are under threat around the world! **You can help make this happen** by supporting a drawing contest planned for May-June 2021! The drawings will show the world what kids love most about trees as a climate action (planting them AND not cutting them down) to help save penguins and coral reefs – and people! A tree will be planted for every kid who enters the contest and donations will be accepted from supporters who want to help plant even more trees on their behalf. Prizes include 30-minute Zoom calls with environmental scientists / artists / activists / authors from around the world. Find out more here – <https://kidscareaboutclimate.org>.
